## KTY Token Utility

## DEFLATION AND UTILITY:

KTY Tokens are not required to be held directly, but do underly every bet and other platform fees. KTY tokens are Auto-bought from AMM pools on Uniswap by participating players sending Ether. The auto-bought KTY Tokens are sent and locked up in a treasury vault within the KittieFIGHT smart contract system creating a deflationary effect on the KTY token supply and aggressive demand for KTY tokens resulting in upward valuation in KTY token
