## KTY Token distribution pools

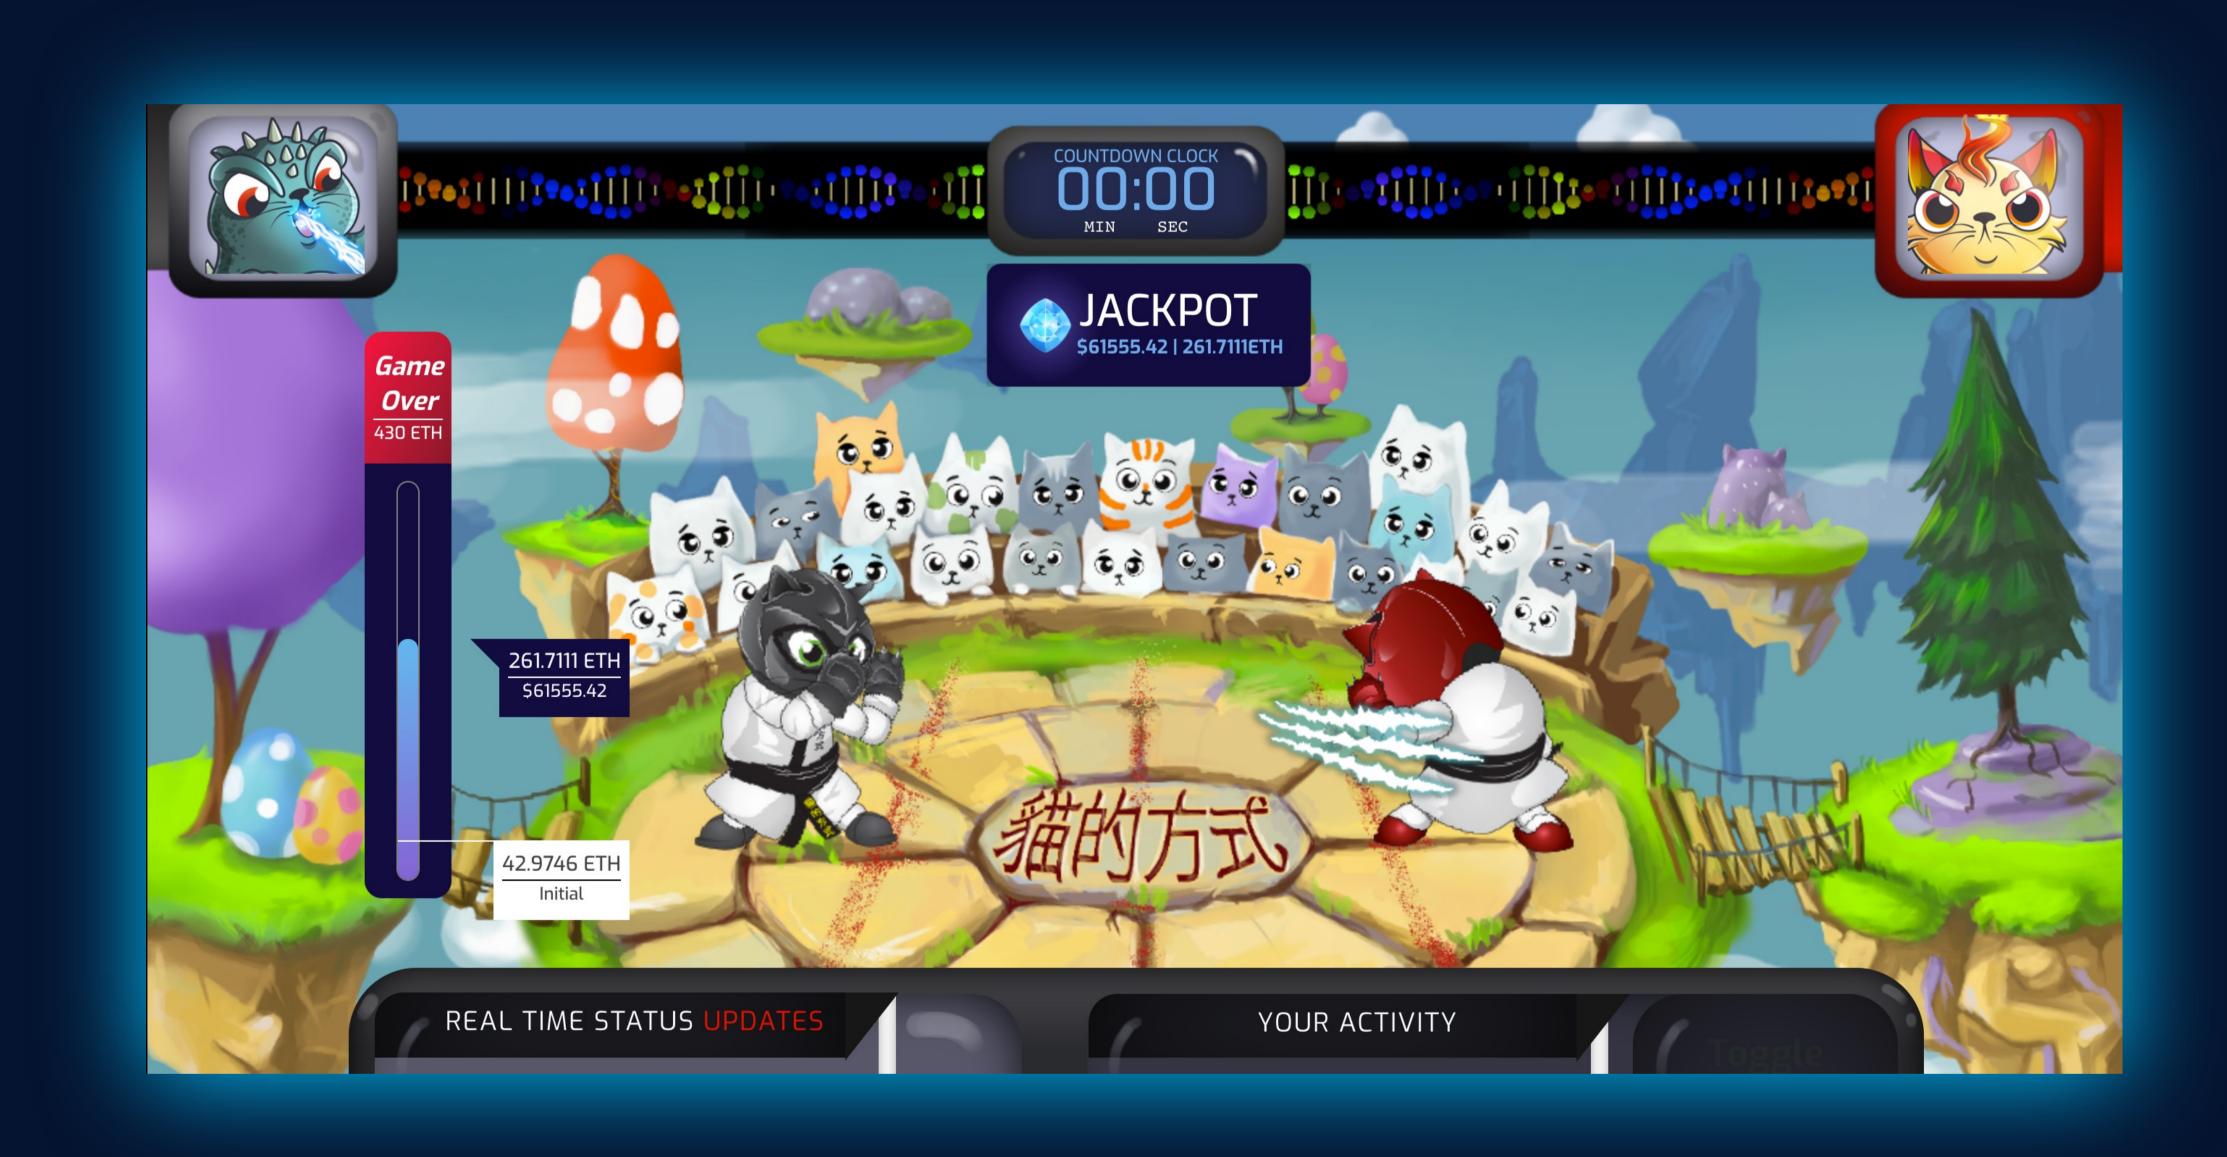

## Official KTY Token

## DAO Token Pools

The kittieFIGHT token (KTY) is a gamified utility token powering the kittieFIGHT internal economy by utilizing limited supply with suppressed emissions and incentivized crowd participation for various fees paid in Kittiefight scheduled matches. KittieFIGHT is DeFI Lending backed, FOMO Mortal Kombat CryptoKitties MMO game! The growing demand for use of KittieFIGHT tokens (KTY) in games, drives up the value of KTY token which are additional rewards to players in each game aside from the Ether rewards.

Kty Tokens not required to be held directly, but do underly every bet and other platform fees. KTY tokens are Auto-bought from AMM pools on Uniswap by participating players sending Ether. The auto-bought KTY Tokens and are sent and locked up in a treasury vault within the KitttieFIGHT smart contract system creating a deflationary effect on the KTY token supply.

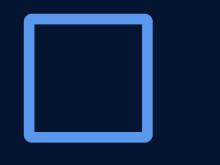

The List of KTY Token platfrom fees include:

Ticket fees Betting fees

Redemption fees

Total KTY available: 100,000,000 KTY

- Gaming reward issuance : 65,000,000
- Team allocation (Vested): 15,000,000
- Reserved / Private : 9,000,000
- Partners: 3,000,000
- Community participation: 1,000,000
- Yield farming progam : 7,000,000

## DAO Token

With the deployment of the kittieFIGHT dapp unto the Ethereum mainnet, only about 15% of the total 100 million DAO Tokens will have access to 100% of the KittieFIGHT Ether revenue pool. As more dapps with revenue pools are available and as more DAO tokens are locked up via the staking reward mechanism, there will be a progressive growth in demand for the DAO Tokens and subsequent increase in DAO Token valuation. Participators of various categories get involved in the presale or through various community activities to take advantage of future growth in value.

Total DAO Token available : 100,000,000

85% or 85 million

Reserved, future Dapp based distributions

7% or 7 million

Yield farming progam

3% or 3 million TBD Private sale

1% or 1 million

Marketing partners

1% or 1 million Pre-existing DAO holder bonus

3% or 3 million

Governance community DAO seeders

Only about 15% of a total of 100 million DAO tokens are to be distributed to participators of various categories based on various activity levels. 85% of the DAO tokens are reserved for future distributions during subsequent dapp launches. The DAO tokens are useful for various activities mentioned below:

As staking mechanism for access to multiple dapp Ether revenue pools

Governance voting tool for DAO organization steering

Utility tokens used within subsequent dapps to be deployed
